Jordan Ellis

Senior Platform Engineer · Runtime Security & AI for Operations

Denver, CO · jordan.ellis@example.com · github.com/jordan-ellis-example

SUMMARY

Platform engineer with 7 years of experience running Kubernetes in production. I build kernel-level runtime security that detects container escapes and cryptominers, and I'm now adding an AI assistant that triages security alerts and suggests fixes for on-call engineers. Looking to learn about LLM agents for operations, meet maintainers of runtime security projects, and find contributors for an open-source detection rules library.

EXPERIENCE

Senior Platform Engineer — Lumenfield Systems 2023 – Present

- Built kernel-level runtime detection for 40 Kubernetes clusters that flags container escapes, privilege escalation and cryptominers in pods.
- Prototyping an AI triage assistant that reads security alerts, gathers logs and traces, and proposes a fix before paging on-call.
- Cut alert noise by 60% with OpenTelemetry tracing and better detection rules.

Site Reliability Engineer — Copperline Analytics 2020 – 2023

- Moved 120 services to GitOps with Argo CD and progressive delivery with automatic rollback.
- Rolled out short-lived workload identities to replace static service passwords.
- Led incident reviews and wrote runbooks for the platform team.

Software Engineer — Brightquay Labs 2018 – 2020

- Built internal developer tooling and self-service preview environments for pull requests.

SKILLS

Platform: Kubernetes, Argo CD, Helm, Terraform, Linux internals · **Security:** runtime threat detection, syscall monitoring, workload identity, image signing · **Observability:** OpenTelemetry, Prometheus, distributed tracing · **AI:** LLM agents, RAG, prompt evaluation · **Languages:** Go, Python

OPEN SOURCE & COMMUNITY

- Maintainer of an open-source library of container runtime detection rules (fictional project).
- Speaker at local cloud native meetups on catching attackers inside containers.

EDUCATION

B.S. Computer Science — Northbridge State University 2018

Synthetic resume for demo purposes only. The person, companies, school and contact details are fictional.
